

School Days

Keep your whole school community in the loop with push notifications.

Notify students, staff and parents about upcoming events and tasks.

Maintain a marquee sign for the big issues of the day.

School Days is a mobile app that helps keep your whole school community in the loop with push notifications.

As you know, there is nothing more frustrating than hearing from a parent that **“I didn’t know”** about a school activity. With students, teachers, parents and staff are using mobile devices more than ever, it’s an easy way to stay in touch. With **School Days** you can push out events, notices, tasks, info, alerts and reminders. There is also a marquee sign, just like the one on the front lawn of many Tasmanian schools, telling everyone the latest news at a glance. **School Days** also saves schools the time and cost of printing and distributing newsletters.

Features:

- Hosted service—no installation required.
- School-branded native apps distributed on the App Stores (iOS & Android)
- Push notifications
- Announce notices, events, tasks and more
- Marquee sign
- Custom quick-links to important resources
- Positive direct messaging vs. the uncertainty of email
- Parent Section Add-on
- Scheduled reminders

Check out our app toolbox for schools including Homeroom and our new app **Folio**, a diary and journal app for today’s students (coming soon)

If you would like to find out more about School Days, visit our website at www.getbusi.com and click on the **School Days** icon.
